Tanzania

02nd September 2026

Attn: Mr. Kenneth Davis Kasigila,
Founder & Group Chief Executive Officer

**RE: APPRECIATION & RECOGNITION: STRATEGIC
PARTNERSHIP IN SMALLHOLDER CARBON EXPANSION.**

On behalf of KADERES Peasants Development PLC (KDP), I write to express our formal appreciation and recognition for the outstanding field leadership of **Africa Climate Finance** across the Southern Highlands of Tanzania.

Driven from your headquarters in Rungwe, Mbeya, your execution of farmer mobilization, climate literacy, and structured onboarding has been pivotal as we scale our agroforestry carbon initiative alongside Acorn (Rabobank). By removing upfront cost barriers and ensuring data integrity, Africa Climate Finance directly accelerates our target of integrating 450,000 smallholder farmers into verified carbon value chains.

Crucially, your field operations bridge local land stewardship with global climate imperatives. By converting agroforestry practices into performance-based carbon income, this partnership advances **Tanzania's Updated Nationally Determined Contribution (NDC, 2021–2030)**, aligns with national commitments under **Article 6 of the UNFCCC Paris Agreement**, and directly operationalizes the agricultural sustainability pillars of **Tanzania Vision 2050** and the **UN Sustainable Development Goals (SDGs 13 & 15)**.

Africa Climate Finance has proven to be an indispensable regional partner whose technical rigor and community-first approach reflect the gold standard of impact-driven climate entrepreneurship. We look forward to deepening our collaboration as we expand registration and carbon market access across the region.

Sincerely,

Leonard Faustine Zimbheya,
Chief Executive Officer
KADERES Peasants Development PLC.
